

Prasanjit Singh

FRONT-END DEVELOPER

ABOUT ME

I'm a front-end/UI engineer focused on developing jank-free UIs and delivering a smooth user experience.

WORK EXPERIENCE

2018 – Present

Software Engineer @Nobul

Nobul is a real-estate business website built with React.js

I'm working on both frontend & backend here.

2015 – 2018

Front-end Engineer @Kayako

Worked on a customer support app built with Ember.js. Besides the main product I also worked on other apps within the platform like help-center & chat app build with Backbone & Vue.js

2014 – 2015

Senior UI Designer @ADI Group

Designed web apps, websites & mobile apps for the clients.

2012 – 2014

UI Designer @DigiMantra Labs

Designed and developed websites & web apps for the clients.
